INSTALLATION CRITERIA

- I. The storage shed must be flat against the wall at the rear of the parking space and between the side lines separating your car bay from the adjacent bays (as shown in the picture below).
- II. The storage shed must not be more than 700mm in depth.
- III. The storage shed must not be closer than 100mm to the upper ceiling slab.
- IV. The storage shed must not obstruct, enclose or inhibit the operation of the fire sprinklers, smoke detectors, ventilation or lighting within the car park.
- V. The storage shed must not prevent the resident's vehicle from parking completely within the parking space. At no time should any part of the vehicle protrude into the adjacent car bays or driveway.
